Choice Seedlings for Sale

These are carefully selected seedlings—the ones that are next best to those we name.

All others are destroyed or given to roadside plantings each year. Every year brings newer and better ones, chosen from the thousands of seedlings we grow. Order by color—we offer a complete range. You may also suggest parentage.

No. 1. VERY CHOICE. Each plant marked for color, serial number and parentage. Each \$1.00, 6 for \$5.00

No. 2. NEXT BEST. Marked for color. Each different.

Each 50c, 7 for \$3.00, 12 for \$5.00

We do not send out any that we would not be proud to have you tell your friends are — "Whiting Seedlings."

DICTIONARY OF COLOR (Maerz and Paul, 1930)

Price \$12.00

Whiting Introductions for 1945

ROCKET (No. 4215) A brilliant new orange yellow iris that many of our visitors think is the finest they have ever seen in our gardens. Judges and casual visitors alike, went straight to it. The standards are pure deep chrome and the falls are pure deep orange chrome almost to the edge. The flowers are large, wide petalled, classically formed and of very heavy substance. Seven to nine blooms are well carried on strong 38 inch stalks. When this seedling first bloomed we called it Brass Band—because it was so loud—but it is really flame color, not in the least brassy, so we have named it ROCKET. \$40.00

BURMESE GOLD (No. 4158) A glowing gold blend of delightfully ruffled form and graceful carriage. It has such a smooth combination of deep yellow, pink, apricot and real gold that it is in effect a self of about the shade Ridgway calls bittersweet pink with a central light like a candle flame. The branching is not particularly wide but the arrangement of the buds gives it a long season of fresh and lovely blooms. 34 to 36 inches in height. \$30.00

BLUE RYHTHM (No. 4332) Most of us concede that there is as yet no true blue iris. Yet with so many breeders working for one there is bound to be improvement. We think Blue Rhythm is a step nearer to real blue, and a really handsome iris. It comes close to cornflower blue, softened by a silvery overtone. The flowers are large and full with wide standards arched and domed, and semiflaring falls. The wide hafts are smooth and blue with no pattern, the substance is especially good. stalks are 38 to 40 inches tall and widely branched, carrying many flowers. season of bloom carries over from midseason to late. The plants are robust, free blooming and show above normal increase. \$25,00

GALLANTRY (No. 4078) This is a medium dark blue of intensely rich coloring—a true self. The large flowers are beautifully ruffled with widely flaring falls. branching is especially good with plenty of room for many blooms and buds. plants are hardy and vigorous in growth, blooming very freely, on 38 to 40 inch stalks.

\$20.00

CLOTH OF GOLD (No. 413) A brilliant deep yellow self from Golden Hind x Golden Spike. We sent a few of these out under number and have received several suggestions that it be named. Some have said that it is better than Golden Spike—well why shouldn't it be? If the children are not better than their parents-what are we working for? The large flowers are wide and full, the stands well held, the falls quite flaring. The haft is smooth yellow and the heavy beard is orange. The 36 inch \$15.00 stalks branch well and the plants are very vigorous and perfectly hardy.

One each of the new introductions will be sent to a customer for \$100.00.

Carefully Selected List of Tall Bearded Irises

We are still taking time to give you the name of the originator and date of introduction of each iris as well as the ratings and awards of the American Iris Society. We realize that because of the difficulties of travel iris judges have not been able to see and evaluate all of the new varieties. Many of the new introductions from gardens not easily reached will have to wait till a more favorable time to receive the recognition they deserve.

We have indicated the season of bloom by E., M. and L. for early, midseason and late, and the height in inches. H. C. stands for Highly Commended, H. M. for Honorable Mention, and A. M. for Award of Merit by the American Iris Society. Per. R. means a permanent rating by 20 or more judges in one year, and R. for tentative rating by 5 or more judges.

ACTION FRONT (P. Cook 1942) E. M. 36 in. A brilliant copper red, distinct and fine. R. 90., 1944. \$6.00

AZURE SKIES (Pattison 1943) M. L. 36 in. A very lovely light blue, beautifully formed and well branched. H. M. 1943, Per. R. 89. \$10.00

ADVENTURE (Grant 1941) M. 36 in. Large yellow plicata with brown markings on a creamy yellow ground. H. M. 1943, R. 88, 1943. \$5.00

BLUE RIVER (Milliken 1941) E. 36 in. A very blue blue of medium light tone. It is perfectly hardy here and is a joy in the early garden.

ALBA SUPERBA (J. Sass 1943) M. 40 in. A really superb new white, fine in every way. Stock very scarce. H. M. 1943, R. 88. \$25.00

BLUE SHIMMER (J. Sass 1942) M. 38 in. A sensational iris—large, tall, strikingly beautiful. Easily tops among the blue and white plicatas. H. M. 1942, A. M. 1944, Per. R. 89.

ALZA HOLA (Snyder 1941) M. 38 in. A fascinating blend of light blue and gold. R. 88, 1944. \$15.00

BLUE ZENITH (Whiting 1942) M. 42 in. A deep, sky blue self of large size, full form and excellent blooming habits. Perfectly hardy and of very vigorous growth. Per. R. 87.

AMARANTH (Whiting 1942) M. 36 in. A warm, rosy purple self, very smoothly colored, with an enamel finish. R. 88, 1942.

BRIGHT MELODY (Snyder 1942) M. 36 in. A beautifully finished iris of rich Concord grape coloring. H. M. 1943, R. 92, 1944.

ANNABEL (Whiting 1942) M. 36 in. A very clear light blue self of nicely rounded form, good substance and many buds. R. 87, 1942. \$2.00

BUFFAWN (Andrews 1940) M. 36 in. A beautiful golden tan blend that seems to have been somewhat overlooked. \$1.50

ARAB CHIEF (Whiting 1944) V. L. 36 in. A near self of rich burnt orange coloring. Blooms freely and increases fast. \$6.00

BUTTERCUP LANE (Hall 1941) M. 31 in. A beautifully ruffled, deep yellow iris that everyone admires. Perfect for the front border. H. M. 1940, Per R. 88. \$3.00

AVE MARIA (Tompkins 1944) A splendid new white iris that holds its own among the best. Clear and pure in coloring, perfectly hardy. \$25.00

CALDERILLA (DeForest 1944) M. 38 in. A blend of terra-cotta, gold and cacao brown with a violet flush at the end of beard. Flowers very large with wide, closed standards. \$15.00

CASA MORENA (DeForest 1943) M. 38 in. Large flowers of deep, rich, glistening brown. H. M. 1944, R. 89, 1944. \$20.00

concerto (Tompkins 1944) M. L. 34 in. Deep pansy purple of velvety texture and heavy substance. The standards are slightly lighter than the falls which are edged with the lighter purple. The flowers are pleasingly ruffled and nicely placed on well branched, sturdy stems. H. C. 1943.

CEDAR ROSE (Whiting 1941) M. 36 in. A glowing brown red iris of great garden value. H. C. 1940, H. M. 1942. Per. R. 88. \$2.50

copper frills (Whiting 1941) M. 34 in. A crisply ruffled, rosy copper self of distinct style. A bright spot in any planting. \$.50

COPPER PINK (Kellogg 1941) M. 38 in. One of the very best pink toned blends. Smooth and beautifully finished. H. M. 1942, Per. R. 88. \$8.50

CRIMSON TIDE (Nicholls 1939) M. L. 40 in. Still one of the best dark reds, rich and velvety. Per. R. 89. \$2.00

DAINTY BESS (Whiting 1941) M. 15 in. A small and dainty light blue—a typical table iris, delightful for cutting. \$1.00

DAYDAWN (Whiting 1940) M. 38 in. One of our earliest introductions, a tall, pink and yellow blend that sells so fast to garden visitors that stock is still scarce. H. C. 1939.* \$1.50

DEEP VELVET (Salbach 1939) L. 38 in. A very lovely, deep velvety purple iris, a great favorite everywhere. H. M. 1941, A. M. 1942, Per. R. 90. \$3.00 DISPLAY (Grant 1942) M. L. 35 in. A brilliant brown red—one of the finest we have ever grown for all round garden excellence. H. M. 1942, Per R. 88. \$10.00

ELMOHR (Loomis-Long 1942) M. 36 in. And who isn't proud to grow Elmohr? The most stunning iris we have seen in many a day. Immense flowers of rich and glowing mulberry purple are borne on tall, perfectly branched stalks. A masterpiece of breeding. Hardy and vigorous, it grows and blooms gloriously anywhere. No garden is complete without Elmohr. An iris that wins friends and influences people. H. M. 1942, A. M. 1944, Per. R. 90.

ELSA SASS (H. P. Sass 1939) M. 36 in. This clear, cool lemon yellow iris has a delightful personality that endears it to all who see it. H. M. 1939, A. M. 1941, Per. R. 89.

FAIR ELAINE (Mitchell 1938) M. 40 in. "Elaine the fair, Elaine the beautiful, Elaine the lily maid of Astolat". A lovely two toned yellow that will always be a favorite in the finest gardens. H. M. 1939, A. M. 1940, Per. R. 89.

FLORA ZENOR (J. Sass 1942) A distinct break in color—almost a true crab apple pink. Much in demand for breeding. Hardy and vigorous in growth. H. M. 1942, A. M. 1944, Per. R. 86. \$5.00

FROSTY BLUE (Whiting-Kellogg 1941) M. 38 in. Large flowers of excellent form and substance—very clear, light blue with a frosty finish. The stalks are beautifully branched and carry many buds. The strong, hardy plants bloom and increase well. R. 87, 1943. \$5.00

GARDEN GLORY (Whiting 1943) M. L. 33 in. A pure self of rich Bordeaux red. The clean, smooth haft and dark beard give depth to its coloring and its enameled finish and flaring form are distinctive. Although it is of medium size and height we are very proud of it and think it is one of the best to come from our seedling beds. H. C. 1942, R. 91, 1944. \$10.00

GARDEN FLAME (H. P. Sass 1941) M. L. 34 in. A rich garnet red iris that has become justly famous. It is the result of long years of careful breeding by that master hybridizer, Hans Sass. H. M. 1940, A. M. 1943, Per. R. 89.

GILT EDGE (Whiting 1941) M. 38 in. A fresh and lovely creamy yellow iris with an edge of deeper yellow on the falls. The fowers are large and well formed, the branching and growing habits are excellent. Per. R. 86. \$2.00

GOLDEN COCKEREL (Whiting-Hill 1940) A clear light yellow self of good form, heavy substance and robust growing habits. \$1.00

GOLDEN EAGLE (Hall 1942) M. 38 in. A brilliant light yellow with a satiny sheen—very large and fine. Blooms freely and increases fast. H. C. 1941, H. M. 1942, Per. R. 87 \$3.50

GOLDEN FLEECE (J. Sass-Whiting 1940) M. 44 in. One of our favorite irises in the whole garden. Its clear, lemon cream coloring is accented by a deeper lemon haft and wide edging around the fall. A very charming iris in any company. Tall, well branched and free flowering, it is perfectly hardy and increases well. H. M. 1940, A. M. 1942, Per. R. 90. \$10.00

GOLDEN MAJESTY (Salbach 1938) M. L. 38 in. A deep golden yellow self of large size and beautiful form. H. M. 1937, A. M. 1940, Per. R. 90. \$1.00

GOLDEN SPIKE (Whiting 1940) M. 36 in. A brilliant deep yellow self. The flowers are large and full and are carried on widely branched stems. The plants are perfectly hardy and increase rapidly. H. M. 1940, A. M. 1942, Per. R. 90. \$4.00

GRACE BALLARD (H. P. Sass 1943) M. 36 in. A charming blend of pink and creamy apricot tones. It has heavy substance, pleasing form and good branching. One of the best pink blends. \$5.00

GRAND CANYON (Kleinsorge 1941) M. 38 in. A beautiful blend of plum, copper and gold. Large, well branched and vigorous in growth. H. M. 1943, A. M. 1944. Per R. 87.

GREAT LAKES (Cousins 1938) M 40 in. The fine light blue by which all other blues are measured. H. M. 1939, A. M. 1940, Dykes Medal 1942, Per. R. 91. \$1.75

GREEN SHADOWS (H. P. Sass 1942) M. 38 in. A most intriguing new color in iris—pure green-gold. Large, beautifully formed flowers on tall, well branched stalks. One of the best of the recent novelties. \$15.00

HARVEST MOON (Whiting 1944) M. 34 in. One of the brightest spots in our garden. A luscious apricot blend—good enough to eat. The flowers are large and rounded, with full, wide petals of extra heavy substance. A close runner up to Mellowglow. Very prolific and hardy.

\$5.00

HONEYFLOW (Tompkins 1944) M. L. 38 in. A very fine new blended self of Meadowsweet rose with a smooth brushing of Inca gold at the haft. The form is excellent and the substance extra heavy. An outstanding iris \$40.00

HOOSIER SUNRISE (Lapham 1942) M. 40 in. A large and beautiful pink blend warmly infused with buff. The color is clean and fresh and the growing and blooming habits excellent. H. M. 1945, Per. R. 88.

INVICTUS (Hall 1941) M. 38 in. A very large, deep yellow iris with an interesting haft pattern of amber. Makes a striking effect in the garden. H. M. 1940, Per. R. 88.

IOWA MAID (Whiting 1943) M. 34 in. A smoothly finished personality. The standards are pure golden buff and the falls a warm rose pink. A distinct bicolor of very pleasing contrasts. Very hardy, floriferous and prolific. \$2.00

JAKE (J. Sass-Long 1943) M. 36 in. A splendid new white iris that will hold its own among the best. Very hardy, free flowering and prolific. \$1.50

JOAN LAY (Chadburn 1939) M. 36 in. A clear, pure yellow from England that is even better than we expected it to be. The color is exceptionally fresh and clean and the form most attractive. A. M., R. H. S. of England 1941. In a recent article in our Bulletin, Mr. Cave of England said that he personally preferred Joan Lay to the Dykes Medal winner Mabel Chadburn, a sister seedling. It is perfectly hardy here, grows well, blooms freely and shows better than average increase. \$5.00

JONQUIL (Whiting 1943) M. L. 42 in. The tallest yellow we have —but its stalks are so strong that they never blow over. The very large flowers are of soft, clear yellow distinctly edged with deeper yellow on all the petals. An iris with a charming personality. R. 88, 1942. \$2.00

LAKE HURON (J. Sass 1942) M. 36 in. A really blue iris in the medium register where we need good blues. A most effective garden iris. Per. R. 87. \$2.00

LATE SUN (De Forest 1940) M. L. 38 in. A very fine deep yellow self—one of the best in this class. Large flowers, of full form and heavy substance are well carried on widely branched stalks. H. M. 1942, Per. R. 87. \$2.00

L. MERTON GAGE (Lapham 1942) M. 42. in. A creamy pink of large size, full form and good branching. Strong growing plants that blocom freely and give good increase. H. M. 1942, Per. R. 87. \$7.00

LOUVOIS (Cayeax 1939) M. 35 in. One of the oldest irises we list and one of the nicest. Like a big brown pansy with its velvety maroon falls edged with chocolate brown. A. M. 1939, Per R. 89. \$1.00

MARY E. NICHOLS 1939) M. 38 in. A beautiful iris of creamy yellow with the falls smoothly overlaid with clear, bright golden yellow. It makes a most striking clump and should be in every garden. H. M. 1940, A. M. 1943, Per. R. 89. \$2.00

MARY VERNON (McKee 1942) M. 37 in. A distinct and fine variegata of antique gold and ruby red. Colors very clear and brilliant. H. M. 1942, Per. R. 88. \$6.00

MATTERHORN (J. Sass-Schreiner 1938) M. 38 in. Still one of the finest white irises. A cold, sparkling white with a pale yellow beard. Large, full formed flowers are carried well on the widely branched stems. Perfectly hardy, floriferous and prolific. H. M. 1938, A. M. 1940, Per. R. 89.

MELITZA (Nesmith 1940) M. 40. An ivory pink iris of unusual and rarely delicate tint. The intense pinkish tangerine beard seems to infuse the flower with its vivid coloring. H. M. 1940, A. M. 1942, Per. R. 88.

MELLOWGLOW (Whiting 1942) M. 38 in. Deep peach or apricot with a flush of pink. The standards are very wide, well arched but not domed, the falls are very broadly rounded with wide, smooth hafts and a heavy orange beard. Perhaps our finest introduction to date. H. M. 1942, R. 90, 1942. \$25.00

MINNIE COLQUIT (H. P. Sass 1942) M. 36 in. A clear purple and white plicata of large size and beautifully ruffled form. The stalks are widely branched, the plants strong and vigorous with free blooming habits. A very fine iris. H. M. 1943, Per. R. 88.

MIRABELLE (Whiting 1941) M. 38 in. A light creamy apricot blend with a touch of pink on the falls. The color is delicate but the substance is especially heavy with long lasting qualities. The flowers are large, of long oval form and well spaced on tall branching stems. Hardy, vigorous and prolific. H. M. 1941, Per. R. 86.

MISS BISHOP (J. Sass 1942) M. 38 in. A pure glistening white iris with a smooth chrome yellow haft and beard. The yellow coloring is laid on so smoothly that it looks like a signal patch. A very lovely flower. Per. R. 88. \$5.00

MOHRSON (White 1935) M. 35 in. A William Mohr seedling that has stood the test of time. A righly colored flower of red purple and bishops violet attractively veined. Easy to grow, free flowering and prolific. H. M. 1935, A. M. 1937. Per. R. 89.

MONONA (Whiting 1942) E 35 in. A warm heliotrope blend that brightens the early garden. Bright tones of rosy plum and purple shade smoothly into each other. The flowers are of medium size and height—the plants very hardy and fast increasing. \$2.00

MOONBEAM (H. P. Sass 1943) M. 36 in. As cool and refreshing as a long drink of lemonade—and about that color. A large flower of clear lemon yellow this iris seems to have escaped the judges but is worthy of their consideration. It is well branched and has excellent blooming and growing habits. Rr. 89, 1944.

MOONLIGHT MADONA (J. Sass 1943) M. 36 in. A pale lemon yellow self with a hint of cream, a very large and beautifully formed iris similar to Elsa Sass. Delightfully ruffled and borne on tall, well branched stalks. H. M. 1943, Per. R. 89. \$7.50

MOONLIT SEA (J. Sass 1943) M. 35 in. A most distinctive and fascinating iris. The standards are white, heavily flushed lavender violet, the falls are white with a patterned border of deep blue violet. But the stunning feature is the splash of empire yellow at the haft which seems to ray out from the beard. Planted among light yellow irises like Moonlight Madona it will give you a real thrill. H. M. 1943, R. 87, 1944.

MOUNT WASHINGTON (Essig 1937) M. 50 in. One of the really fine older white irises. It is a warm white—very large and fine, with a touch of gold at the haft. Blooming about 40 in, here, it is still a tall and lovely white of excellent proportions. Seems hardy—we have grown and bloomed it for several years without loss. H. M. 1939, A. M. 1940, Per. R. 90.

NED LEFEVRE (Lapham 1942) M 38 in. A glowing blend of rose and copper with a hint of orange. Very smoothly and delightfully blended into a near self, this makes a fine clump in any garden. The flowers are large, with well branched stalks and many buds. R. 88, 1944. \$4,00

NIGHTFALL (Hall 1942) M. 36 in. The falls are very velvety, rich, deep pansy purple with almost no veining on the haft, the standards are several shades lighter, making a striking combination. The substance and form are excellent. We think this is one of the most attractive dark irises in the garden. H. M. 1943, Per. R. 88.

NYLON (Whiting 1940) The only Nylons we know of that are not frozen—they are not even rationed. Lustrous rose beige in color, full fashioned, sheer but very durable. Try a pair or grow your own from one. \$2.00

OLA KALA (J. Sass 1943) M. 34 in. The name Ola Kala is modern Greek for O. K. and it has proved itself well. A grand, deep yellow self that has won many friends. Stock is very scarce and in great demand. H. M. 1943, Per. R. 89. \$15.00

ORMOHR (Kleinsorge 1937) M. 40 in. A fascinating hybrid from William Mohr. Large, tall, of excellent form, its light violet tones nicely blended, it is an aristocrat in the garden. H. M. 1939, A. M. 1940, Per. R. 89.

PEACHBLOW (H. P. Sass 1943) M. 36 in. This is a splendid new yellow plicata that has a glow of rosy peach coloring that sets it apart from all others. A really fresh and lovely flower in the garden and most beautiful in flower arrangements. The flowers are large for a plicata, the stalks are well branched and the plants very prolific. \$7.50

PERSIAN PRINCE (H. P. Sass 1941) M. 36 in. The prince of variegatas. The colors are sharp and brilliant—the standards clear, pure yellow, the falls rich oxblood red with a narrow edging of yellow. The blooms are large with wide, full petals, and are well carried on the strong stalks. Perfectly hardy and strong growing, it blooms and increases freely. H. M. 1942, Per. R. 87.

PINK REFLECTION (P. Cook 1942) L. 36 in. An exquisitely delicate blend of pink and pale gold that has won many friends. The flowers are large and beautifully formed and well carried on nicely branched stalks. Excellent substance insures lasting beauty. H. M. 1942, A. M. 1944, Per. R. 89.

PRAIRIE SUNSET (H. P. Sass 1939) M. 36 in. Everyone who does not already grow it, looks forward to the time when he can buy a plant of Prairie Sunset. Everything that has been said about it is true—and yet seeing it is better than hearing about it. A subtle blending of peach, apricot, rose, copper and gold—it is really a self of indescribably lovely coloring. It deserves all the honors is has been given—H. M. 1937, A. M. 1941, Dykes Medal 1943, Per R. 93. \$4.50

PRISCILLA (Whiting 1942) M. 30 in. So many compliments have been showered on her that it would have turned the head of a less modest maiden. Those who believe a white iris should be really white will delight in her purity. And when well grown she often reaches a height of 36 inches with medium large flowers. In keeping with her purity of color, her form is classic with rounded curves and excellent substance. The plants are exceptionally hardy, free flowering and prolific of increase. H. M. 1943, Per. R. 87.

RAEJEAN (Whiting 1940) M. L. 38 in. A very large, two toned yellow of real distinction. The closely domed standards are of deep chrome yellow, the wide falls are of lighter tone, edged with the deeper yellow of the standards. The substance is very firm and the texture glistening. A free bloomer and a fast increasor. H. M. 1942, Per. R. 87.

RED VALOR (Nicholls 1939) M. 36 in. A very fine, large, deep garnet red iris that seemed to be overlocked for a while but now is coming into its own. H. M. 1940, A. M. 1943, Per R. 89. \$6.00

RIO ORO (DeForest 1940) M. 40 in. Clean, glistening honey yellow self, with a garden effect of bright brown gold. \$6.00 REMEMBRANCE (Hall 1942) M. 38 in. A large and lovely pink blend with yellow overtones—one of the best. Strong, well branched stems from vigorous plants. H. M. 1943, A. M. 1944, Per R. 88. \$5.00

ROSE TOP (H. P Sass 1943) M 38 in. A stunning new plicata—very large flowers of light creamy yellow, heavily patterned with rosy pink. A winner. H. M. 1943, R. 89. 1943. \$15.00

ROUGE BOUQUET (Whiting 1941) M. 36 in. A large and richly colored dark red iris that is a great favorite in our garden. Although it has never received any award it is our best selling iris and we are hard put to keep any stock. Strong, vigorous and perfectly hardy. R. 87, 1942.

ROYAL SCOTT (Hall 1944) A tall, large flowered, red trimmed plicata of a pleasing tone of burgundy red. It is so heavily stitched that at a distance it gives a red effect. H. M. 1944. \$7.50

RUBIENT (Whiting 1942) M. 36 in. A ruby red pansy iris that has been called "an Amigo done in reds". The standards are rich red purple, the falls deep red purple velvet edged with the color of the stands. The gold patterened haft serves to accentuate the ransy resemblance. R. 89, 1942.

SAMOVAR (Hall 1941) E. M. 34 in. A brilliant and colorful iris of great garden value. A self of bright copper it stands cut in any planting. Plants vigcrous, hardy and free blooming. H. M. 1941, R. 86, 1942. \$3.00

SEA BLUE (Whiting 1941) M. 38 in. A large, tall and thoroughly satisfactory light blue self, clear and fine in color. The stalks are well branched, the plants vigorous and hardy. R. 86, 1942. \$2.50

SETTING SUN (Kirkland 1937) M. 36 in. A deep and burning red copper ivis of unusual charm and distinction. Unlike any other of the dark reds, and good. Per. R. 87. \$1.00 SHARKSKIN (G. Douglas 1942) M. 44 in. A beautiful, warm white iris of outstanding qualities. The substance is excellent and the texture almost velvety. H. M. 1943, R. 89, 1944. \$7.50

SONRISA (DeForest 1942) M. 36 in. A fine copper pink with a gold overlay that gives it a metalic finish. Large, well formed and widely branched. Hardy and prolific. \$15.00

snow Carnival (Graves 1942) M. 38 in. A large and beautifully ruffled, pure white iris that is a valuable addition to the finest garden. H. C. 1941, H. M. 1942, A. M. 1944, Per. R. 90. \$10.00

SNOW FLURRY (Rees 1939) E. 40 in. A lovely, frilled, blue white iris that captivates everyone. Not too widely branched, it still carries many buds and extends over the early midseason. Strong growing, hardy and floriferous. H. M. 1939, A. M. 1941, Per. R. 89. \$4.50

SNOW VELVET (H. P. Sass 1942) M. 38 in. An excellent white of very heavy substance, velvety texture and exceptional weather resistance. Large and very beautiful. H. M. 1942, Per. R. 88. \$5.00

STELLA POLARIS (K. Smith 1939) M. 42 in. A large, cool white of excellent form and substance and wonderful branching. Newly opened flowers flushed silvery blue. H. M. 1939, Per R. 89. \$3.50

SPINDRIFT (Loomis-Schreiner 1944) M. 36 in. One of the most remarkable color breaks in iris development. A delicate seashell or coral pink self with a heavy tangerine beard. Grown under the number TQ 70 it has attracted much attention. H. C. 1943.

SPUN GOLD (Glutzbeck 1940) M. 38 in. A gorgeous yellow iris that has proved its worth. A deep, pure, brilliant yellow self with a velvety overlay on the falls. A winner. H. M. 1939, A. M. 1942, Dykes Medal 1944, Per R. 91. \$7.50

STARDOM (Hall 1941) M. 34 in. A smooth, warm blend of tawny apricot and copper—very lovely in the garden. The flowers are medium large, of pleasing form, good substance and branching. Free flowering and robust in growth. H. M. 1940, A. M. 1943, Per. R. 89. \$3,00

SUNSET SERENADE (J. Sass 1943) M. 36 in. A bright and beautiful golden tan or apricot blend that is a stand out. Selected as the finest of the Prairie Sunset seedlings, it meets all the demands made upon it. Color, form, substance and branching are all excellent. The strong, hardy plants bloom and increase freely. H. C. 1942, H. M. 1943, Per R. 89. \$20.00

TA MING (Whiting 1943) M. 35 in. A deep yellow iris with deeper, almost orange falls. The flowers are of medium size, but wide and full formed and of lovely clear tones. Strong, hardy plants with excellent growing habits and many well branched bloom stalks. \$2.00

TEA ROSE (Whiting 1944) M. 36 in. The pinkest iris we have in our gardens. Almost a pure self of glowing copper pink it makes a wonderful spot of color. The individual flowers are nicely formed and well spaced on the stalks. The plants are vigorous and hardy, giving a wealth of bloom throughout the season. The color is strong and warm enough to be seen across the garden and yet clear and delicate as a rose. H. C. 1943, Rr. 90, 1944.

THE ADMIRAL (Hall 1941) M. 37 in. A clean, bright, medium blue iris of near perfection. The form, finish and substance are equally outstanding. The plant is vigorous, a free bloomer and increases rapidly. H. M. 1940, A. M. 1944, Per R. 88.

THE RAVEN (Whiting 1944) M. 36 in. A rich, dark iris of exceptional beauty. A glossy black purple of flaring, slightly ruffled form and good carriage. The plants are very vigorous and hardy, with free bloom and good increase. \$10.00

THE RED DOUGLAS (J. Sass 1937) M. 38 in. Still the dark red by which other dark reds are measured, and still so much in demand that stocks are always limited. Really a brilliant dahlia purple, it is so glowing that it stands out in any planting. H. M. 1936, A. M. 1939, Dykes Medal 1941. Per. R. 93. Only Prairie Sunset has such a record of awards and ratings. \$1.50

THREE OAKS (Whiting 1943) M. 38 in. A deep mallow pink with an overlay of rosy copper. It is classed as a blend but is a near self of bright rose pink. The blooms are very large, with domed standards and semi-flaring falls. The plant is hardy and very vigorous, it blooms freely and increases well. R. 87, 1943.

TISHOMINGO (W. Caldwell 1942) M. L. 42 in. A large, clear wistaria blue self of great distinction. One of the very best of the new blues. H. M. 1942, A. M. 1944, Per R. 88. 90 \$10.00

VATICAN PURPLE (Whiting 1943) M. 36 in. A rich dark blue purple self of outstanding character. The large, well rounded flowers are of extremely heavy substance and pleasing color. Unlike most dark irises it has a glossy, satiny finish instead of a velvety texture. Thus it neither spots nor fades and withstands any weather. The plants are very hardy and vigorous in growth, producing a wealth of bloom and strong increase. An iris with a future. H. M. 1943, R. 88, 1943.

VEISHEA (Whiting 1943) M. 34 in. A bright copper rose blend with a dashing blaze of blue in the center of the fall. Named for the annual spring festival at Iowa State College—it is truly a pageant of color in the garden. The flowers are very large and full formed, the stalks are sturdy, well branched but not tall—an ideal iris for landscape effect. H. C. 1942, R.89, 1942.

WHITE CITY (Murrell 1939) E. M. 40 in. A fine cold blue white from England. Tall, beautifully formed, splendidly branched its charm is heightened by a touch of blue at the throat. Dykes Medal, England, 1940. R. 88, 1943. \$5.00

WHITE PRINCE (G. Douglas 1940) M. 40 in. A fine creamy white of excellent form and substance. The branching is superb and the plants show strong growth and increase. H. M. 1940, Per. R. 89. \$1.00

WINTER CARNIVAL (Schreiner 1941) M. 38 i.n A splendid clear white with a touch of gold at the throat. One of the very best all round white irises we have grown, it will hold its own in the best of company. Perfectly hardy, free flowering and prolific. H. M. 1942, Per R. 91. \$4.00
